

## Measures for the arrested fishermen around the lake.

- Night fishing is allowed from 1 February to 30 September on the enclosed area. Outside this period or sector, while camping is prohibited around the lake and will be considered as wild camping prohibited by law.
- The only night fishing boilie bait or with a vegetable is authorized, daycare conducts night patrols.
- The camp must be done while respecting the environment, prohibition to deposit waste and obligation to bring trash bags, put the filled bags in bins placed around the lake.
- It is mandatory to be provided with a shovel to bury us its droppings.
- The shelters must always be neutral in color (green, khaki or camouflage).
- The ground lights, and parking on the advances and water releases are banned.
- For fishing carp action, the lines will be drawn straight in the direction width of the lake from the location chosen and never through.
- If taking other fish other than the one you sin thank you to hand them to the water in the best possible conditions.
- Distance fishing should never exceeded 150 meters in fishing activities and the lines will be cast in order not to hamper the boats operating on the lake and in order not to hang the cables across the lake in the lengthwise.
- No carp can't be maintained in captivity or transported outside the legal hours (1/2 before sunrise to 1/2 hour after sunset). For only three daily gridded taken predators are allowed (2 pikes and 1 zander).
- For safety reasons the use of a boat in the area between the buoys and the dam is strictly prohibited.
